Without a roll call the senate Monday agreed to a motion to strike out the wording of the Kenyon-Shepard liquor bill and to substitute and pass the Webb bill, which passed the house on Saturday. The Webb bill simply makes unlawful the shipment of liquor into states for purposes forbidden by the laws of the states into which the shipments are made. It was passed again by the House Tuesday to correct a technical defect.

Senators Root, Sutherland and Paynter, all noted as constitutional lawyers, opposed the Webb bill on the ground that it is unconstitutional. The President is said to believe the measure unquestionably is unconstitutional, and that its passage by Congress simply shifts the burden of responsibility for its final defeat from the shoulders of politicians to the Supreme Court.

Tobacco Situation in Hopkins.

Madisonville, Ky., Feb. 10.—At a meeting of the members of the Stemming District Tobacco Association of Hopkins county held here Saturday afternoon strong resolutions were adopted asking the Executive committee of the association to refuse to accept any sum less than eight dollars per hundred for the 1912 pooled crop. It was understood that the association had sold ten million pounds of the crop at Henderson at 7 cents, and the sentiment of the members here was that this was entirely unsatisfactory and they asked in the resolutions that the matter be submitted to a vote of the membership before the sale is made.

REACHED HIS GOAL

Explorer Scott Found the South Pole Only To Perish in Blizzard.

ENGLISHMAN HEARD FROM

Was a Month Behind Amundsen, Whose Flag He Found Planted.

London, Feb. 10.—Capt. Robert F. Scott, the Antarctic explorer, and four of his companions on his dash to the South Pole, perished on their return journey from the pole, which was attained Monday, January 18, 1912. Official announcement of the catastrophe which overtook Capt. Scott's expedition, was made at a meeting of the Royal Geographical Society here tonight.

It was announced that Capt. Scott, Dr. E. A. Wilson, Lieut. H. R. Bowers, Capt. L. E. G. Oates and Petty Officer Evans, had perished.

The news of the death of the explorers came in a brief dispatch from Lieut. E. R. G. R. Evans, of the royal navy, who was second in command when the expedition started, and who now signs as "commander" of the expedition.

A searching expedition recovered the bodies and records of the party. Capt. Scott's party found Capt. Roald Amundsen's tent and records at the South Pole. On the return trip, about March 29, 1912, eleven miles from One Ton Depot a blizzard overwhelmed them. They had suffered greatly from hunger and exposure, and the death of Scott, Bowers and Wilson virtually was due to that. They died soon after the blizzard swept down on the party.

Oates died from exposure March 17. The death of Evans resulted from a fall Feb. 17. The other members of the expedition are reported to be in good health.

"SECOND JESUS CHRIST"

Jailed For Deluding White Women In Evansville.

Wilson Johnson, a negro "healer" was released from the Evansville jail last week, where he had been placed by an order of the city judge, for nonpayment of a fine for "promoting the mingling of the races." The fine was paid by Joel Fort, of Robertson county, Tenn. Mr. Fort's father owned Johnson's mother, who claimed to possess occult powers and that she passed them to her son. When the jail doors opened to let Johnson pass out to liberty 50 white women were waiting in the jail yard to welcome him, whom they believed to be a divine healer. From his infancy Johnson's mother had taught him that he was a second Jesus Christ and the 50 or more white women who met him at liberty's door believed the same thing, claiming that he had wrought cures for their families and friends. He was quite successful in Evansville but took his departure for Cleveland, Ohio, as soon as he was released. Some of the white women threatened to follow him.

FOUR RECRUITS

Received At The Western Kentucky Orphans' Home.

Four more little inmates for the Orphans' Home is the record Monday. An urgent letter call Supt. Humphrey to a neighbor county where he found four little children who were in need of immediate help. They were formally assigned to The Home, but on account of having whooping cough could not be brought at once into the Home. A supply of coal and provisions were purchased for them and arrangements made for their keeping until all danger of communicating disease to other children has passed when they will be brought into the Home. There was not enough food in the house for a meal for one child and no fuel on hand, but the Home will make them comfortable until they can be brought in.

It will not be amiss to state in connection that Mr. Humphrey, being kept quite busy now, is after children are coming daily these trips are made at an expense of from five to fifteen dollars each and this in addition to the maintenance of the Home.
